

# TREASURY MANAGEMENT QUICK REFERENCE GUIDE

## UNINSTALL A REMOTE DEPOSIT CAPTURE SCANNER

### EARLIER VERSIONS OF WINDOWS

### HOW TO UNINSTALL A REMOTE DEPOSIT CAPTURE SCANNER

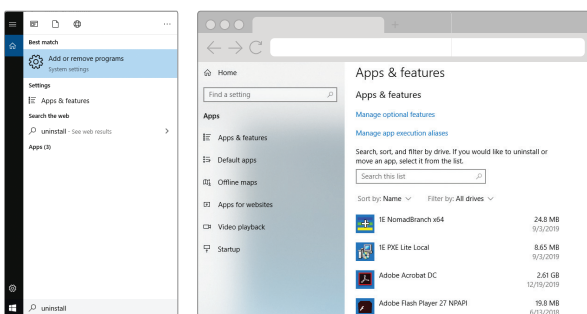

#### EARLIER VERSIONS OF WINDOWS:

1. You must first disconnect the scanner's USB cord from your computer.
2. From your Windows menu at the bottom left of your PC, click **Control Panel**. In the Programs section, click **Uninstall a Program**.
3. From the listing of programs, locate **Ranger** (Silver Bullet Technology), right-click and select **Uninstall**.
4. Next, depending on which scanner you are using, locate either **Panini**, or **Ranger Plug-In: Burroughs-SmartPVA**. Once located, right-click and select **Uninstall**, then follow the prompts. Once uninstalled, a restart of your PC is required.

#### RECENT VERSIONS OF WINDOWS:

1. You must first disconnect the scanner's USB cord from your computer.
2. From the Windows taskbar, type "uninstall" in the search box. Select **Add or remove programs**. The Apps & features screen will open.
3. From the listing of programs, locate **Ranger** (Silver Bullet Technology), right-click and select **Uninstall**.
4. Next, depending on which scanner you are using, locate either **Panini**, or **Ranger Plug-In: Burroughs-SmartPVA**. Once located, right-click and select **Uninstall**, then follow the prompts. Once uninstalled, a restart of your PC is required.
